Notice for Summer Residential Electric and Water/Sewer Customers

New Policies in Effect for Summer Residential Customers.

All meters will now be pulled in the winter unless otherwise instructed by customer to leave on due to winter electric usage (example: freezers, etc.).

Summer customers will need to fill out and return connection and disconnection forms ahead of time in order to have a smooth transition for their arrival and departure. Please be sure to put down the date when your services will begin and end. Before your meter can be reconnected you are required to pay any past due remaining balance that you owe. A deposit may be required based on your payment history. Please advise if you need to be put on a payment plan.

Reminder: Water will be turned on and off by operator only.

Connection/Disconnection forms are also available online.
